ABOUT ME

Enthusiastic undergraduate at SLIIT pursuing a BSc (Hons) in Information Technology with a specialization in Artificial Intelligence. Strong interest in AI/ML and Software Engineering, with hands-on experience in developing full-stack web applications and integrating AI/ML solutions. Skilled in designing scalable systems, building RESTful APIs, and delivering efficient, user-centric solutions. Passionate about problem-solving, clean code practices, and continuously learning and applying modern technologies through real-world projects.

EDUCATION

UNDERGRADUATE

- Mar 2024 – Mar 2028

SLIIT

- Sri Lanka Institute of Information Technology (SLIIT) |
Specialization: Artificial Intelligence

PROJECTS

TechNest – Computer Parts E-Commerce & Services Platform | ASP.NET Core, React, Flutter, PostgreSQL, AI

- Developing a full-stack e-commerce and computer services platform with web, admin, and mobile applications.
- Implemented product management, orders, repairs, PC building, quotations, and role-based administration.
- Integrated an AI agent to assist customers with product recommendations, requirements, and budget-based solutions

Clothique – Clothing E-Commerce Platform | Next.js, TypeScript, Prisma, PostgreSQL, Better Auth, Stripe

- Developed a full-stack clothing e-commerce platform with customer and admin functionality.
- Implemented authentication, role-based access control, product management, and shopping cart features.
- Integrated Stripe payments and Prisma/PostgreSQL for database-driven application workflows.

VehicleIQ – Intelligent Vehicle Price Prediction | Python, Scikit-learn, Pandas, Flask

- Developed an ML-based vehicle price prediction system using real-world vehicle and economic data.
- Performed data preprocessing, feature engineering, model comparison, and hyperparameter tuning.
- Deployed the trained model through a Flask REST API for real-time predictions.

SKILLS

- | | | |
|-----------------|---------------|-----------|
| • Asp .Net Core | • NextJs | • Express |
| • Flask | • Spring Boot | • React |
| • Flutter | | |
